

Teaching in Interventional Neuroradiology

Monday, 14.00 – 15.00

Demonstrationsraum NRA NORD 1 C225

The weekly performed *Teaching in Interventional Neuroradiology* is integral part of the *International Fellowship Program* of the Department of Neuroradiology. It takes place every Monday and consists of lectures on a specific topic or on discussion of current cases. The attendance by the fellows is mandatory in order to fulfill the requirements of the Program.

Teaching faculty: PD Dr. Z. Kulcsar, Dr. S. Husain, Prof. Ch. Stippich, Prof. em. A. Valavanis

Program of the spring semester 2018

- 05.02.2018 **The perianeurysmal environment, Prof. em. A. Valavanis**
- 26.02.2018 **Aneurysm behavior during the acute phase of SAH and implications for the endovascular treatment, Prof. em. A. Valavanis**
- 05.03.2018 **Cases discussion, PD Dr. Kulcsar & Dr. S. Husain**
- 12.03.2018 **Vasospasm: Theories vs. Facts, Prof. em. A. Valavanis**
- 19.03.2018 **Microcatheter shaping for aneurysm coiling, PD Dr. Kulcsar**
- 26.03.2018 **Cases discussion, PD Dr. Kulcsar & Dr. S. Husain**
- 16.04.2018 **Cases discussion, PD Dr. Kulcsar & Dr. S. Husain**
- 23.04.2018 **Transarterial devascularization of meningiomas, Prof. em. A. Valavanis**
- 30.04.2018 **Acutely ruptured brain AVM's: how to proceed? , Prof. em. A. Valavanis**
- 07.05.2018 **Cases discussion, PD Dr. Kulcsar & Dr. S. Husain**
- 14.05.2018 **Thrombectomy in acute stroke, Prof. Ch. Stippich**
- 28.05.2018 **The lenticulostriate arteries, Prof. em. A. Valavanis**

Administration: Irene De Bastiani
